A Letter from the President + CEO

Jason Schrumppf, President + CEO

Growing through Connectivity

The success of a community hospital is largely dependent on its connectivity with its employees, providers, patients, and the communities it supports. It is the connectivity with our workforce that has helped us reduce the number of travelers used this past year and enhance employee and provider retention rates. Our connections with all the clinical training programs in our region have helped improve our new graduate recruitment success. Connecting with patients, who entrust us with their health and wellness, has resulted in record clinic visits and revenue. Connectivity with employers and business community helped create pathways to keep healthcare local for their workforce. With the many headwinds in the healthcare landscape, these connections are vital to our sustainability.

This connectiveness has played a major role with our strong operational statistics and quality scores in 2023. We experienced a 5-year high with 455 births and 1,244 endoscopy cases and all-time record highs with 172,829 clinic visits, 442,017 laboratory tests, 51,515 radiology exams and 111,047 therapy visits. Most importantly, our patient safety domain clinical quality scores finished in the top 10% of Missouri hospitals.

From a financial perspective, we experienced a tremendous turnaround in 2023 with a positive 5.6% net income. Strong outpatient volume and growth of pharmacy related revenues combined with less bad debt deductions resulted in record

net revenues of \$146,868,398. On the expense side, outsourced purchased services expense was cut by over \$2.6 million, largely due to less use of travel staff and elimination of inpatient behavioral health management services. We focused our efforts on retaining our workforce by ensuring a supportive work environment through safe patient to staff ratios.

I am very proud of the growth we have experienced this past year and excited about our future opportunities. This growth would not be possible without the generous support and connectivity of our community. On behalf of our Board of Directors, Foundation and entire workforce, we would like to express our deep appreciation for your past and future partnership.

Thank you for taking time to connect with us through our 2023 Annual Report. Throughout this report, you will find stories of inspiration, and highlights of new technology and service lines, updated medical equipment, new physicians and providers, facility expansion and renovations, innovative care delivery programs and future growth plans that will help further connect you with our community hospital.

Strategic Integration of LPNs: Mitigating Inpatient Staffing Crisis

Missouri Delta has taken a proactive approach in addressing a critical staffing shortage that has plagued hospitals across the U.S. Aligning our mission and values with quality patient care, Missouri Delta has strategically incorporated Licensed Practical Nurses (LPNs) into its healthcare team, allowing them to work at the top of their licensure. "Our key objective in this initiative was to alleviate staffing strain in the hospital and also ensure delivery of high-quality care to patients consistently," explains Sam Stephenson, RN, nurse manager. "After analyzing the LPN integration, we saw a considerable decrease in unfilled shifts and an upward trend in patient satisfaction scores". The incorporation of LPNs as a strategic solution to the staffing crisis demonstrates Missouri Delta's innovation and adaptability in consistent, high-quality care.

Gift Shop & Auxiliary

The Missouri Delta Auxiliary consists of dedicated men and women who freely volunteer their time to help others. With a rich history of service, the Auxiliary plays a crucial role within the Missouri Delta system, offering assistance in various capacities. Responsibilities range from welcoming patients and visitors at the front desk to escorting patients to different departments within the medical center. Additionally, they undertake tasks such as delivering mail and gifts to patients and serving as liaisons for families awaiting updates on loved ones undergoing surgery. The Auxiliary represents the spirit of compassion and community service, enriching the experience of patients and their families at Missouri Delta.

In 2023, we had 16 volunteers who donated 3,272.75 hours of their time. Since the inception of the Auxiliary in 1947, an estimated \$326,557 has been raised for special projects, such as landscaping, scholarships, baby changing stations, furniture, wheelchairs, dialysis equipment, ICU & Surgery waiting area, Emergency Department, EBUS, Adolescent Behavioral Health Unit, and many more.

Beyond the satisfaction of contributing to a meaningful cause, volunteering with the Missouri Delta Auxiliary offers an opportunity to forge camaraderie, embrace team spirit, and experience moments of joy throughout the medical center. Volunteers are welcomed into a supportive community and are invited to an annual Auxiliary appreciation banquet, where the successes of special projects and donated hours are celebrated.

Volunteers receive a complimentary meal and drink from the Courtyard Café during their shift.

Exciting Opportunities for 2024

In addition to the traditional volunteer roles, we are seeking individuals with specific interests and skills to take on specialized tasks:

- **Decorating Enthusiasts:** Utilize your passion for decorating at the medical center for the Christmas holidays and special occasions. Decorations supplied by Missouri Delta.
- **Philanthropic Leaders:** Take the lead in organizing special Auxiliary fundraisers, such as bake sales and raffles, to support our mission.
- **Organizational Wizards:** Manage check-in and the snack area for Red Cross Blood Drives with precision and efficiency.

If you or someone you know is eager to give back and interested in joining the Missouri Delta Auxiliary, we encourage you to reach out to Amy Alcorn at 573-472-7525 or via email at amalcorn@missouridelta.com. Your involvement will not only make a difference in the lives of others but also enrich your own with meaningful experiences and connections.

THANK YOU TO JOANN MATTHEWS

After 21 years of dedicated service to the Missouri Delta Auxiliary, we bid farewell to Ms. JoAnn Matthews. From coordinating volunteers to managing the daily operations of the Gift Shop and organizing countless blood drives, the impact she has made is immeasurable! Ms. JoAnn's commitment to our medical center and passion for her job were evident in every interaction she had, whether with a patient, visitor, or staff member. The work she has done at Missouri Delta will leave a permanent mark. Join us in celebrating this incredible milestone! Congratulations, Ms. JoAnn! We wish you a well-deserved and joy-filled retirement!

A Word from Foundation Director

Amy Alcorn - Executive Director

In 2023, our Missouri Delta Foundation partners gave with big hearts and passion, and we truly appreciate the support. Your continued partnership and generosity inspire us to reach higher as we expand patient care and stay at the forefront of innovation.

Philanthropic individuals, families and businesses are what fuel our progress. After facing a pandemic for a couple of years, our world faces many challenges. It takes a community of supporters with a philanthropic heart and bold vision to look beyond the obstacles we face. We are truly grateful

that our partners possess this imaginative, inventive, and entrepreneurial spirit. It's because of your kindness, generosity, and passion that we can realize our full potential and find innumerable ways to cross boundaries and answer healthcare's biggest questions. We have an abundance of powerful examples in the annual report that follows.

Because of the steadfast support of our donors, we will continue to forge new ways forward to create a world and a future that is full of possibilities for our patients.

Giving

The beauty of giving to the Missouri Delta Medical Center Foundation is that no gift is too small to make a significant impact. A donation of any amount can also be directed to the area at Missouri Delta Medical Center that has the most meaning for the donor. *If you would like more information about any of the giving opportunities, please contact Amy Alcorn at 573.472.7525.*

Ways to Give: Gifts of Cash or Cash Equivalents, Gifts of Appreciated Securities (stocks and bonds, Memorials and Tributes, Event Sponsorships, Matching Gifts, Bequests or Wills, Life Insurance, Real Estate, Retirement Accounts, Savings Accounts and Certificate of Deposits, Corporate Gifts, Foundation Gifts).

Missouri Delta Foundation gave back \$921,812.19 in medical equipment, social services and projects for Missouri Delta in 2023.

A Word from Foundation President

Ann W. Matthews- President 2023

It has been an honor and a privilege to serve on the MDMC Foundation Board for the past six years. As in years past, the Foundation has been able to provide assistance to the hospital this year by purchasing equipment, assistance with a capital campaign, and providing scholarship funds to employees. This is made possible because of the generosity of individuals of this community and the surrounding areas, plus businesses, endowments and organizations who all believe in the importance of quality medical care here in Sikeston.

This year saw the opening of the Lawrence Family Medical Building that provides physical and occupational therapy services, along with housing podiatry and occupational medicine departments. The Foundation contributed \$500,000 this year toward the building, in addition to the lead gift from the Lawrence family.

Foundation funds have been utilized to enhance services in several areas. These include upgrades to fluoroscopy technology in radiology, a state-of-the-art bone density machine, diagnostic equipment for the newly-established vestibular audiology area, chairs for infusion patients at the infusion center and additional equipment for the Emergency Department.

In November the Missouri Delta Benefit Ball was held, raising an additional \$103,000 earmarked for the Lawrence Family Medical Building.

The trustees of the Foundation along with administration and employees thank you, the donors, for your continued support. It is only because of your generosity that the Foundation is able to further its mission to “assist, advance and strengthen Missouri Delta Medical Center in its mission of healing.”

Advancing Diagnostic Imaging

Newest Technology in Bone Health

Bone densitometry, also called DEXA or DXA, uses a very small dose of ionizing radiation to produce pictures of the inside of the body to measure bone loss. It is commonly used to diagnose osteoporosis and the risk for developing fragility fractures.

And now, with the help of the Foundation, Missouri Delta Endocrine and Diabetes Center has the newest DEXA technology, the GE Healthcare Prodigy with updated software. This bone density test is a low-dose x-ray machine that is attached to a computer and can quantify how dense the bone is, while the software gives further clarification on bone health.

“Over 20 years ago, Missouri Delta Endocrine and Diabetes Center began evaluating, diagnosing, and treating metabolic bone disorders. This newest technology shows our dedication to bone health and its importance,” explains Dr. Muhannad Al-Kilani, Endocrinologist/Diabetologist. “Osteoporosis related hip or vertebral fractures can increase mortality and/or potential disability.

Who is at increased risk of osteoporosis?

- menopausal woman
- over 70 years of age
- younger persons if exposed to repeated prednisone/ corticosteroid treatment
- those with chronic rheumatoid arthritis and related illnesses
- those with significant eating disorders in childhood
- those with chronic parathyroid disorder
- post-transplant patients

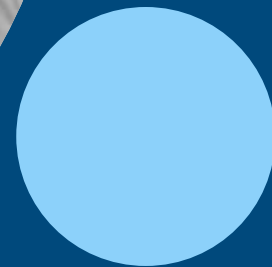

A primary care provider may choose to order a bone density evaluation for patients with other potential calcium or phosphorus disorders.

Dr. Al-Kilani has maintained continuous and updated education, with repeated certifications by the International Society of Clinical Densitometry for evaluating, diagnosing, and managing osteoporosis.

Ask your primary care provider if you would benefit from a DEXA scan. Missouri Delta Endocrine & Diabetic Center is ready to help.

Muhannad Al-Kilani, MD, FACE, FACP, Endocrinologist/Diabetologist shows the newest technology with the GE Healthcare Prodigy purchased by Missouri Delta Foundation.

Emergency Department SiteRite™ 9 Ultrasound System

Improving Clinician Efficiency

Missouri Delta Foundation purchased a SiteRite™ 9 Ultrasound System for the Emergency Department in 2023. This new technology is designed to help improve clinician efficiency and aids in first attempt insertion success rate with placing IV lines, and other vascular access devices. The Ultrasound System is equipped with a larger screen size (15.6-inch touch screen) and enhanced imaging quality. According to Chris Hawkins, Emergency Department Director, “A couple of patients have actually hugged me because they are normally a ‘hard stick’, and this technology kept them from being stuck repeatedly.”

Recognition & Innovations

Health Equity Award

Missouri Delta Medical Center has been awarded the 2023 Health Equity Award by Health Quality Innovator (HQI) for the creation of the Missouri Delta Patient Food Pantry which opened in February last year. The Health Equity award category recognizes organizations that have successfully implemented interventions and approaches to address disparities across a range of conditions and improve healthcare quality and outcomes. Since the inception of the pantry, 351 patients were discharged from Missouri Delta with a large bag of food and a referral to the SEMO Food Bank, who in turn connects the patients to resources such as senior food boxes, SNAP benefits, info on local food pantries and more. The Foundation, with huge support from the VFW Post 3174 in Sikeston, keeps the Patient Food Pantry stocked and ready with needed items.

HCAHPS Improvements

Missouri Delta Medical Center had a total of 325 Hospital Consumer Assessment of Healthcare Providers and Systems (HCAHPS) surveys returned for 2023. Compared to 2022, with a total of 360 surveys returned, Missouri Delta has had significant HCAHPS improvements reported in all 8 categories. We continuously look for new ways to increase patient satisfaction scores as efficiently and effectively as possible.

Speciality Pharmacy

Missouri Delta has added “Specialty” Pharmacy to our services and is the first of its kind in Sikeston and the surrounding area.

Specialty Pharmacy is a niche branch of pharmaceutical care dedicated to complex, high-cost medications that often require special handling, administration, or monitoring. It goes beyond the scope of traditional pharmacies by focusing on medications for chronic and rare conditions like cancer, HIV/AIDS, multiple sclerosis, and others. The new Specialty Pharmacy at Missouri Delta launched in December 2023, providing comprehensive support via a new software system, TherigySTM, including personalized medication management, patient education, coordination with healthcare providers and insurance assistance.

Ion Robot

We are pleased to have added the Ion Endoluminal System to our existing robot technology. The Ion Robot enables physicians to biopsy lung nodules and masses deep within the lung... with improved accuracy and fewer side effects. With the Ion working alongside the Linear EBUS (Endobronchial Ultrasound), patients are diagnosed with one procedure and referred to the appropriate treating physician quicker. Since June 2023, 30 procedures have been completed with 16 having a cancer diagnosis.

Partnership and Outreach 2023

Phlebotomy Class | Sikeston Public Schools

The Sikeston Public School Health Occupations Instructor and Certified Nurse Assistant (CNA) Examiner had 8 of her CNA graduates participate in 30 hours of clinical rotations in laboratories across Missouri Delta locations, such as Smith Street Clinic, Women’s Care Center, Primary Care and of course the medical center. Each graduate completed 30 venous and 10 capillary punctures. After completion of the class, the participants were eligible to take the National Healthcareer Association (NHA) certification exam, though it is not required for employment. One student has already joined the Missouri Delta lab team and plans to start nursing school soon.

Workforce Opportunity Grant | Southeast College of Nursing & Health Sciences

Missouri Delta began participating in the Rural Healthcare Training and Retaining Initiative in 2023 with Southeast College of Nursing & Health Sciences. The program is designed to alleviate healthcare worker shortages by creating sustainable employment and training programs. The training prepares workers for entry into a healthcare occupation and will be held at Missouri Delta. Ten students will participate in each session which includes 6 weeks of classroom education and 1 week of patient care clinical training on the inpatient units. Instructors, course material and grant-funded equipment are provided by Southeast and Missouri Delta employs students as techs, provides the classroom and remainder of equipment needed for use during the program.

Nurse Residency Program

A Nurse Residency Program was established at Missouri Delta in the Fall of 2023. Nurses in their first year of employment at Missouri Delta are enrolled in a 4-month educational program which includes lectures and hands-on activities, meeting once each month. Directors and Managers from departments such as Infection Control, Pharmacy, Laboratory, Critical Care, and Respiratory are involved as well as product representatives for skin, wound and colostomy care. The environment is designed to be a low stress environment with questions and input encouraged.

Phlebotomy | New Madrid County High School Technical Skills Center – Phlebotomy Course

Missouri Delta Lab Director, Margot Hart, recently provided a hands-on education session with students from the New Madrid County High School Technical Skills Center. Students were able to prepare peripheral smear slides of their own blood and review on the microscope, run kit tests, and discuss the testing performed in the different areas of the lab. Students from the New Madrid Center also attended clinicals at the Missouri Delta main laboratory and several clinics within the Missouri Delta system.

National Guard Medical Training

In June 2023, 35 Air National Guard members performed clinical rotations at Missouri Delta Medical Center to fulfill clinical practice requirements under the National Guard Bureau’s Innovative Readiness Training (IRT) program. Members were assigned to the Emergency Department and the Intensive Care Unit (ICU) over the course of 10 days. The Guardsmen consisted of medical technicians, nurses, and physician assistants, each completing 40 acute care hours.

Patient Testimonials

2nd Floor Nurses

"I was recently admitted to Missouri Delta hospital in Sikeston and had such exceptional care from the 2nd floor nurses. Amy and Cheryl along with the hospitalist on that floor during my stay are an asset to our community! Dr. Joseph Jacob was my surgeon and he is a wonderful doctor and in my opinion the best surgeon in his field of medicine!

Please commend Amy for her outstanding care and my thanks for all she did while I was there. Please let her know how much I appreciate her and am so grateful to have met such a highly skilled nurse and compassionate woman as herself. Wishing all God's blessings!"

ReStart Team

"The Restart Team has been so good to us. We feel so lucky to have found Mrs. Tricia. Our son has continued to improve and reach his milestones since seeing her. She is patient, knowledgeable, friendly and makes us feel heard and well cared for. Our son truly loves therapy and starts smiling and looking for Mrs. Tricia as soon as we enter the building. The facility is clean and beautiful and all the staff are friendly. We recommend ReStart for anyone searching for pediatric therapy services in the area!"

Thank you V. Tomlin for the kind words!

THANK YOU TO OUR EMPLOYEES FOR MANY YEARS OF DEDICATION

Thank you for the many years of service you gave to Missouri Delta! We wish you all a retirement full of health and happiness!

New Providers

MARADALE KARAFI, FNP
FAMILY NURSE PRACTITIONER

Family Nurse Practitioner, Maradale Karafa, a New Madrid native, began seeing patients in our Express Care clinic in October. We are so happy to have her join our team!

Call 573-472-6001 to schedule an appointment.

AUBREE LEMARR, FNP
FAMILY NURSE PRACTITIONER

Family Nurse Practitioner, Aubree Lemarr from Malden MO, will begin seeing patients with Missouri Delta in late spring. Keep an eye out for details on her clinic location and start date!

KYLE LEMARR, ATC
ATHLETIC TRAINER

Certified Athletic Trainer, Kyle Lemarr, is splitting his time between Sikeston Public Schools and Missouri Delta, using his expertise in sports medicine!

MARCIA MOORE, MD, FACS
GENERAL SURGERY

Dr. Marcia Moore, Board Certified General Surgeon, with 35 years of experience is accepting new patients! While she is a full-service general surgeon, Dr. Moore has specialized training and interest in breast care. **Call 573-472-7124 to schedule an appointment.**

LORAIN NOLLA, MD, FACOG
OBSTETRICS AND GYNECOLOGY

Missouri Delta Women's Care Center is excited to add Dr. Loraine Nolla, Board Certified OB/GYN, to their team. Dr. Nolla brings over 30 years of OB/GYN experience and is accepting new patients. **Call 573-472-7535 to schedule an appointment.**

PASCAL NYACHOWE, MD, FACS
GENERAL SURGERY

Dr. Pascal Nyachowe, Board Certified General Surgeon, brings 35 years of experience to the Missouri Delta Team and is accepting new patients! **Call 573-472-7124 to schedule an appointment.**

DONNA SPRINGER, MD
FAMILY MEDICINE

Family Medicine Doctor, Donna Springer brings 35 years of experience to the Missouri Delta Smith Street Clinic team and is accepting new patients! **Call 573-471-1105 to schedule an appointment.**

NATALIA VANDEVEN, FNP
FAMILY NURSE PRACTITIONER

Family Nurse Practitioner, Natalia Vandeven, joined our Charleston Community Care Center team and is serving Mississippi County where she grew up! Accepting new patients! **Call 573-683-2327 to schedule an appointment.**

ANNA "KATIE" WAHLIG, DO
ANESTHESIOLOGIST

Our surgery team has added a new leader! Dr. Anna "Kate" Wahlig joins us from SoutheastHealth with many years of anesthesia experience. We are excited for her to join us.

LACEY YOUNG, MD
FAMILY MEDICINE

Cape Girardeau native, Lacey Young, MD, Family Medicine provider is accepting new patients! Dr. Young is ready to provide comprehensive medical care to patients of all ages. **Call 573-472-7535 to schedule an appointment.**

Let's Groove Tonight! 2023 Benefit Ball

Missouri Delta Foundation held a disco-themed Benefit Ball on Saturday, November 11 at the Sikeston Armory. The live-band, Soul Shockers of Memphis, TN, had the dance floor packed all night! Thank you to everyone who made this event such a huge success, either by donating time, talent, or treasure.

Money raised by the 2023 Benefit Ball supported the Lawrence Family Medical Building, which houses Occupational Medicine, Podiatry and ReStart Rehabilitation Services. The new building opened in October 2023 at 203 Plaza Drive in Sikeston.

Raffle winners were drawn at the end of the evening:

Custom Diamond Bangle donated by Sam's Fine Jewelry – Dr. Allison Sindle
 Hand-painted Champagne Bottle designed by Megan Straton – Grace Urhahn
 Bourbon Trio – MedX Medical Equipment

More Events in 2023

One in Four Pregnancy & Infant Loss Awareness Event

One in 4 pregnancies ends in a loss, whether early or later in pregnancy. These losses are tragic and most of the time, unexpected. Missouri Delta Medical Center adopted the “Share Program” decades ago, and it has blossomed into life, providing patients and families with memorabilia, support, and resources to help guide them before, during and after the loss of an infant.

Missouri Delta wants to continue to grow the Share Program, adding Awareness to the forefront. “Families who have experienced loss of an infant, whether stillbirth, or a miscarriage, we want them to know they are not alone,” explains Sara Beth Ross, RN, Maternal Child Nurse Manager. “In October 2023, during Pregnancy and Infant Loss Awareness Month, we hosted our first annual Share Event on the front lawn. The goal was to let our families who have experienced a loss know...we see you; we remember you; and we honor those babies whose lives were cut short. We plan to hold this Share Event annually in October!”

Look for more details to come for the 2024 event!

Breast Cancer Awareness Event

The 2023 Breast Cancer Luncheon took place on Friday, October 6, at the First Christian Church in Sikeston. The luncheon included a guest speaker, Lesley Miller, lunch, and special recognition for breast cancer survivors who have fought battles against cancer. Lesley Miller, this year's speaker, was diagnosed with invasive ductal carcinoma, or IDC, at the age of 40.

Miller said her life was perfect just before discovering her cancer. She had completed her 12-year teaching degree in order to stay at home and homeschool her children, expecting that this would allow them more time to travel.

"My then, 8-month-old son stopped nursing on my right side," Miller said. "At first, I didn't think too much about it," Miller said. While taking a bath one night, she felt two lumps under her armpits. Miller went ahead and made an appointment because she believed God was telling her to do so and she was soon undergoing an ultrasound and biopsy.

Miller said she clung to her faith and God's word during this difficult time of many unknowns. IDC is the most common type of breast cancer, and Alcorn said she hoped Miller's testimony at the luncheon motivated more women to speak up for themselves when something doesn't feel right.

The funds raised are used to provide the newest training to Missouri Delta Medical Center's mammography technicians and radiologists. "Breast cancer awareness is important because one in eight women will be diagnosed with breast cancer," Alcorn said. "Breast cancer is one of the most treatable cancers if caught early; that's why the recommendation is to have your baseline mammogram between the ages of 35-40 unless you have a strong family history; then you should have one earlier."

Look for more details to come for the 2024 Breast Cancer Luncheon!

Tributes and Memorials, 2023

A memorial donation is a touching way to show a family that you are thinking of them in their time of loss. Not only are you honoring a life, but your gift also benefits the Missouri Delta Foundation and its mission. When a memorial donation is received, the family is notified of your contribution.
